EXPERIENCE

ERP Developer (Zoho & ERPNext)

Sept 2025 – Present

Kiwi Kisan Window

India

- Joined as ERPNext Developer Intern (Sept–Dec 2025); converted to full-time via Pre-Placement Offer in Jan 2026 and went on to lead the company's transition to Zoho.
- **Zoho Books & Inventory:** implemented items, warehouses, GST taxes, invoicing and purchase/sales flows, and migrated master and transactional data from ERPNext.
- **Zoho CRM:** configured modules, fields and workflow automations, and integrated CRM with Books and Inventory so customer, order and invoice data stay in sync.
- **Zoho Creator:** built custom business apps with forms, reports and approval workflows, logic in Deluge.
- **Zoho Analytics:** built reports and dashboards on Books, Inventory and CRM data for management reporting.
- **Integrations:** built API integrations using Zoho REST APIs, OAuth 2.0, Deluge invokeUrl/Connections and webhooks, with field-level data mapping between Zoho apps and UniCommerce (inventory/order sync) and Pidge (last-mile logistics).
- **Retail platforms:** managed QueueBuster POS end-to-end, integrating its APIs with back-office systems for item, stock and sales data and resolving store billing/sync issues; administered UrbanPiper online ordering (user roles, store and channel settings).
- **ERPNext:** independently mapped and implemented Buying (GST purchase orders, GRN, invoices, payments, e-Invoice, e-Way Bill), dual-warehouse Manufacturing (BOM, Work Orders, Stock Entries), Selling, Accounting and HR; built Python/SQL reports and Frappe Insights dashboards; deployed on Frappe Cloud.
